WD 1260 CUT & COLLECT MOWER

Introducing the new WD1260 Cut & Collect mower that is the ideal solution for all of your grass cutting requirements. The WD1260 is a direct cut and collect ride on mower that features a deep 2.5mm thick steel chamber cutting deck, which provides a 1.2m cutting width, with an 80mm blade overlap for consistent and clean grass collection.

Two model options are available with either a Low Tip or High Tip 600 litre collector. The high tip collector has an impressive 1.9m tipping height. The collector includes a sensor to monitor air flow through the deck and collector and will automatically shut off the deck once the collector is 90% full.
